Deep Sea Fishing - Kona Hawaii Fishing

The geography of the Big Island makes Kona the Sport Fishing Capital of the Pacific. The steep slope of the ocean bottom puts the deep sea sport fishing within a short distance from the shoreline. Just three miles straight out of the harbor, it's over 6,000 feet deep. Six species of billfish roam the Kona coast along with six species of tuna, dorado, wahoo, several species of shark, and a wide variety of big-game bottom fish.

Dolphin and Whale Watching - Body Glove Cruises

The Kona Coast on the west shore of the Big Island of Hawai'i offers some of the best whale watching in the world. Watch, listen, and learn to appreciate from trained researchers. Knowledge and real experience makes a difference for the better in your whale watching adventure. See brilliantly colored tropical fish, endangered sea turtles, and wild dolphins amid the gorgeous coral reef gardens at Pawai Bay, a protected marine preserve.
